

**Amendment to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (currently amended): A test kit for visualizing fine lines and wrinkles on a person's skin comprising:

- (i) a transparent first strip provided with an adhesive on one surface thereof, the adhesive having sufficient tack to maintain an imprint of fine lines and wrinkles after removal of the strip from the skin;
- (ii) an imaging substrate with at least one darkened area for receiving the transparent strip; and
- (iii) a dusting powder for application against the skin prior to placement thereon of the adhesive surface of the strip; and
- ~~(iii)~~(iv) written instructions within the kit directing a consumer to place the dusting powder against the skin and thereon to place the adhesive surface of the strip against a skin area requiring measurement, to remove the strip and place same against the darkened area of the substrate, to repeat the aforesaid procedure at a future time with a second strip followed by comparison of patterns resultant from the first and second strip applications to the skin.

Claim 2 (original): The kit according to claim 1 wherein the adhesive is a pressure sensitive adhesive.

Claim 3 (original): The kit according to claim 2 wherein the adhesive is an acrylate polymer.

Claim 4 (currently amended): A method for evaluating efficacy of an anti-aging cosmetic product, the method comprising:

(A) providing a kit which comprises:

(i) a transparent first strip provided with an adhesive on one surface thereof, the adhesive having sufficient tack to maintain an imprint of fine lines and wrinkles after removal of the strip from the skin; and

(ii) a dusting powder; and

~~(ii)~~(iii) an imaging substrate with at least one darkened area for receiving the transparent strip;

(B) applying the cosmetic product to the skin;

~~(C)~~ placing the dusting powder against the skin treated with the cosmetic product in step (B);

~~(C)~~(D) placing the adhesive surface of the strip against the skin treated with the dusting powder and the cosmetic product in step (B);

~~(D)~~(E) removing the strip and placing same against one of the at least darkened areas of the substrate; and

~~(E)~~(F) repeating steps ~~(C)~~ and ~~(D)~~ (D) and (E) at a future time with a second strip followed by comparison of patterns resultant from the first and second strip applications to the skin.

Claim 5 (canceled)

Claim 6 (currently amended): The method according to claim ~~5~~4 wherein the dusting powder is carried to the skin on a paper.

Claim 7 (currently amended): The method according to claim ~~5~~4 wherein the dusting powder is a water-dispersible titanium dioxide.

Claim 8 (canceled)

Claim 9 (currently amended): The kit according to claim ~~8~~1 wherein the dusting powder is carried to the skin on a paper.

Claim 10 (currently amended): The kit according to claim ~~8~~1 wherein the dusting powder is a water-dispersible titanium dioxide.
